### 83cm wide roller

The wide roller is ideal for ironing of large laundry items. The free end of the roller is particularly useful for ironing skirts, blouses and shirts as they can be fitted over the free end without being folded.

### Miele Quality

Miele rotary ironers offer reliable comfort and safe technology. The true value is revealed when the machine functions perfectly after many years of use.

### Adjustable roller speed

The roller has five speed settings depending on your requirements. Depending on the fabric, residual moisture or simply your comfort level. For optimum laundry care

### More time for the things you really love to do

Our ultimate goal is to always satisfy our customer's needs, in order to make life easier and more pleasant. Miele therefore offers the rotary ironer which smooths all kinds of textiles quickly and easily. This saves time for the things you really love to do.

### Three heater elements

The temperature is freely adjustable to suit the fabric being ironed. The heat is evenly distributed through the three heater elements. Gentle textile care. Perfect ironing results.

### Fighting creases and crinkles

Whether robust or fine fabrics, perfectly smoothed or refreshed -Miele rotary ironer can do it all. It irons quickly and easily, without strain while you sit. No more tired legs or backpain. Comfort you won't want to ever miss again.

### Automatic finger guard

The finger guard with emergency release button is touch activated. The roller will stop and the heater plate will lift.
