

eXplore S

320 & 340

mechanical sewing machines

STITCHES TO FULFILL YOUR SEWING DREAMS

You can select the perfect pattern for your creative project with the help of the dial and the reference chart conveniently placed on the front of the machine:

- a choice of 23 or 19 decorative and utility stitches for the eXplore 340S and for the 320S respectively;
- practical stretch stitches with an invaluable stitch length fine-tuning function;
- to facilitate your task, these special presser feet come as standard: satin stitch foot, zipper foot, blind hem foot and overlock foot (on 340S).

IDEAL FOR BEGINNERS AND OCCASIONAL SEWISTS

With the elna eXplore 320S and 340S, you will effortlessly handle any project, from minor alterations to major new creations. A number of features make these models particularly user-friendly:

- built-in needle threader;
- jam-proof horizontal rotary hook with easy-set bobbin;
- extra-high presser foot position;
- free arm essential for sewing hems;
- adjustable thread tension and presser foot pressure;
- clip-on system to change presser foot.

PERFECT BUTTONHOLES IN THE BLINK OF AN EYE

Among the selection of built-in stitches, the eXplore 340S and 320S offer one buttonhole stitch each and include the corresponding buttonhole foot:

- The one-step buttonhole and the automatic buttonhole foot equipping the 340S are a great time saver: You just need to insert the button and your machine will sew the buttonhole in the right size and in one single step.
- The 320S, in turn, features a four-step buttonhole and comes with a sliding buttonhole foot.

eXplore 320S & 340S
