

lotus 2

THE ALL-IN-ONE COMPUTERIZED SEWING MACHINE

Unfold the essentially unique

The Lotus spirit

COMPACT. SIMPLE. ENJOYABLE.

Iconic and timeless

The Lotus is elna's iconic model first launched in 1968. A total breakthrough, it was the perfect expression of modernity, freedom and dynamism. To appropriately celebrate its 50th anniversary, we released this legendary sewing machine with a broader choice of stitches and in a striking elna-red finish.

The new Lotus 2 stays true to the original model's innovative concept and spirit. It combines maximum sewing pleasure and minimum fuss. With sturdy flaps that help protect the machine and create a handy, generous sewing table, it is the ultimate all-in-one sewing machine.

Simplicity and ease-of-use: that's the Lotus way of life!

SHOOTING LOCATION:

Former Tavoro - Elna factory in Geneva,
today hosting HEAD - Genève, Haute
école d'art et de design.

THE ALL-IN-ONE SEWING MACHINE

Ready, steady, sew!

Sewing fans will love the fact that they can always have their elna Lotus to hand. Thanks to its unique 'carry-case' concept and folding flaps that open with the flick of a lever to form a sewing table, you'll always be ready to sew on the go.

The elna Lotus opens up like the flower's petals and reveals a treasure of technology. From the integrated pop-up spool pin at the head of the machine to the automatic thread cutter, built-in needle threader and accessory storage, the compact and streamlined design aids practicality and portability. Our finishing touch was to place the needle bar in a unique central position to give you much more room to move and manoeuvre your fabric.

THE PRESENT MEETS THE PAST

The Lotus 2 in the architectural setting of the former Elna factory where the original model was designed and manufactured 50 years ago.

INSPIRED BY OUR HISTORY

Elna's innovative design at MoMA

The first ever compact machine with a unique design: the original elna Lotus from 1968 is in the collection of The Museum of Modern Art (MoMA) in New York.

The essentials.

NOTHING MORE, NOTHING LESS.

Simpler sewing for those who simply love to sew.

Because an easy approach to sewing is part of the Lotus spirit, this model is loaded with features that are essential for a variety of sewing tasks. Its key functions are simply accessible using direct access buttons or a touch pad for the selection of stitches.

Its 100 stitches have been selected for their sewing suitability and include 7 buttonholes. We've combined utility stitches with decorative stitches to create a range of effects, from patchwork, quilting and darning to appliqué and embellishments.

FLAPS CLOSED = carrying case

COMFORTABLE, EASY SEWING WITH A HOST OF PROFICIENT FEATURES

FLAPS OPENED = extra-wide sewing area

Prime examples of swiss design

1

INTEGRATED BOBBIN SPOOL FOR PERMANENT THREADING

The bobbin spool pin springs up and pops back in, making it easy to change thread spools of any size. A spool neatly integrated into the machine contributes to the Lotus' sleek design and ensures it cannot be damaged or snapped during transport.

2

CENTRALISED NEEDLE BAR

Whether it's a heavy pair of curtains, a bulky patchwork project or delicate, slippery material, the centralised needle bar gives you plenty of room to move and manoeuvre your fabric. Space to hold the cloth in place with both hands makes for stable sewing and slicker results.

3

DUAL ACCESSORY STORAGE

Everything in its place and a place for everything. Open the top cover flap and you will find a storage area for the machine essentials (needles, presser feet, buttonhole foot, instruction chart, etc). Slide open the grip front flap to reveal the accessory drawer for items that are useful to have close at hand: bobbins, lint brush, spool holder, screwdriver and seam ripper.

TECHNICAL FEATURES

GENERAL

Classification	Computerized sewing machine
Machine size	W 426 x H 298 x D 155 mm
Machine weight	8,2 kg
Free arm	x
Sewing space	W 162.5 x H 110 mm
2 Centralised needle bar	x
Screen type	LCD
Screen size	H 62 x W 27 mm
Horizontal full rotary hook with transparent bobbin cover	x
Built-in needle threader	x
7 pieces retractable feed dog	x
Lightning	2 built-in white LED lamps in 2 different locations
Thread tension control	Manual
Clip-on presser foot	x
Extra-high presser foot position	Manual
Slide speed control	x
3 Accessory storage	2
Stitch reference chart	On the top cover
1 Spool pin	Vertical drawing out type
Carrying handle	x
