

Features

- Stainless steel trolley
- 7.5m power lead
- Current overload protection
- 10m steel-weave high pressure hose, with 20m hose drum - optional (without hose drum)
- Starlet Trigger gun with safety cut-out
- Spray lance with stainless steel pipe
- Total-Stop facility with delayed motor cut-out
- Continuously adjustable pressure and temperature control
- Brass pump head
- Ceramic-coated pump plungers
- Dry-run safety
- Diesel low level cut-out
- 4-way safety system with overload protection
- Water flow monitoring
- Safety thermostat

Technical Specifications

Kränzle Therm 890

Details	890
Operating pressure	30 - 195 bar
Max. admissible overpressure	205 bar
Water output	15 l/min
Nozzle size (flat jet)	20045
Dirtkiller lance	No
Max. inlet water temperature	60°C
Hose drum	Additional
Chemical injector	Additional
Connected load - 50Hz	400V, 12 A, Three phase
Motor speed	1 400 r.p.m
Motor Rating	7.5kW

Specialist equipment for professional application
