

The Universal Roof and Surface Cleaner can be used with any high pressure cleaner. A good cleaning result is achieved with machines supplying 16 l/minute and higher.

## Features

- Fitted with two nozzles on a rotating swivel arm
- Suitably sized and adjustable wheels for different roof profiles
- Operating with a high pressure hose, it allows cleaning with an up-down movement while standing on the peak of the roof.
- An optional handle allows for ease of movement when cleaning flat surfaces
- The durable cover ensures protection of the unit and minimal spray from the cleaning process
